Introduction

Neuro-Linguistic Programming – NLP is the science of excellence. It offers practical and rapid methods for personal growth and influence. It is the study of how people do things, how they think, process information, behave and about using what works and discarding what does not. NLP is used extensively in Business, Law & Sales and has seeped into every self-help or business communication book.

NLP began in psychology, helping therapists achieve quick, long lasting changes in their patients. Today it is used successfully in areas such as Personal Growth & Improvement, Work, Business, Therapy, Teaching, Training, Learning, and Quality Health Care.
